manufacturer-reported test result

IPX6 / IPX8
body / wireless remote

Intelligent bidet seat only; toilet bowl is not included. Bathroom scenes illustrate suggested settings.

*99.999% is a manufacturer-reported laboratory result for SENSE. Performance depends on test and use conditions; it is not a guarantee in every setting.

02 / THE COMFORT EDIT

The details make the difference.

Choose the comforts that suit your routine.

Controls within reach

A backlit wireless remote and magnetic holder let you choose a convenient place for your controls.

Two saved user profiles

Save water pressure, water and seat temperatures, nozzle position and oscillation for two users.

Care across three areas

Hygiene cycles cover the water path, nozzle and bowl. Enable a 12-hour cycle for dark, unoccupied periods, or activate manually. Re-enable after a power interruption.

Replaceable stainless-steel nozzle

A three-way, full stainless-steel nozzle assembly can be replaced. Replacement kits are optional.

Warm water, heated seat and drying

Instant water heating, three pressure levels, a heated seat and three warm-air drying levels.

Replaceable stainless-steel nozzle

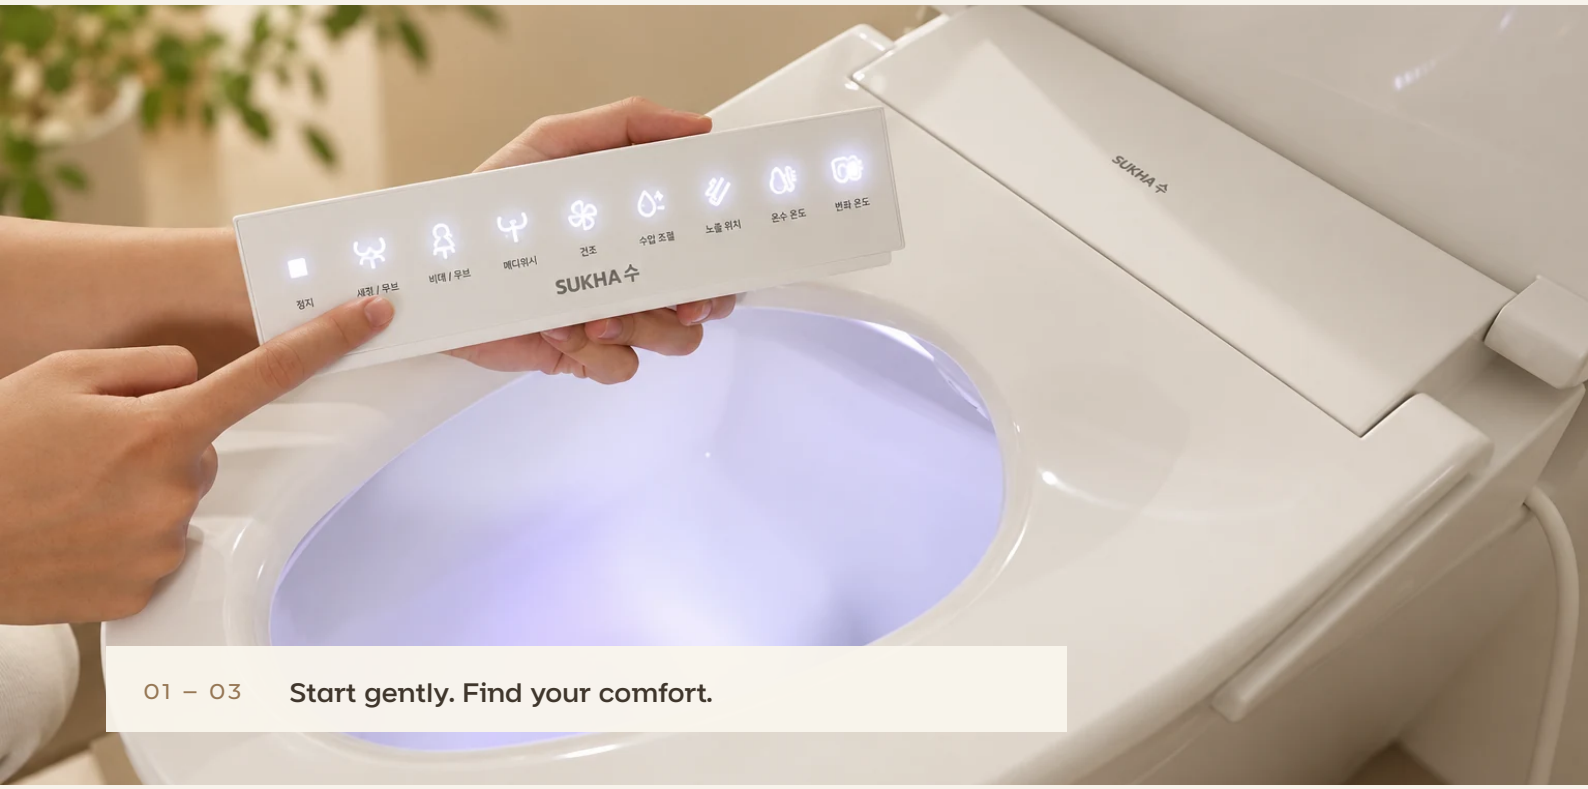
A slim profile with a soft-closing lid

IP ratings apply to individual components, not the plug or outlet. Keep electrical connections dry and unplug before external cleaning.

03 / THE COMFORT EDIT

Make yourself comfortable.

Wireless remote · two saved profiles



01 – 03 **Start gently. Find your comfort.**

01

Select

Sit on the seat so the sensor detects you, then select rear or front wash.

02

Adjust

Adjust pressure, temperature and nozzle position, starting gently.

03

Finish

Press Stop when finished. Select warm-air drying if desired.

Your preferences

During washing, set your preferences and hold User 1 or 2 for about three seconds to save. Press the same user button to recall your settings.

Gentle care

Unplug before cleaning the exterior. Use a soft cloth and neutral detergent. Avoid abrasives, strong acids and solvents. Keep the plug and outlet dry.

04 / THE COMFORT EDIT

Every detail, at a glance.

SUKHA SENSE / Product reference specifications

Product type	Retrofit smart bidet seat for compatible toilets
Width × depth × height	390 × 528 × 95 mm
Approximate weight	3.2 kg
Main body material	PP
Controls	Wireless backlit remote
Control power supply	Remote: three AA batteries · 4.5 V
Seat surface	Antibacterial material · routine cleaning still required
Water-resistance rating	IPX6 body / IPX8 remote
Nozzle assembly	Full SUS stainless steel · 3-way · replaceable
Lid movement	Soft-close action

Power-cord length	1.4 m
Included water-hose length	Approximately 60 cm
Protection devices	Built-in leakage protection · thermal fuse · seat sensor · overheating protection

Confirm the local electrical rating

Electrical rating: confirm voltage, frequency and rated power on the supplied local-unit label before installation.

Reference specifications come from manufacturer documents. Electrical values differ between editions; use the label and manual supplied with the delivered unit.

05 / THE COMFORT EDIT

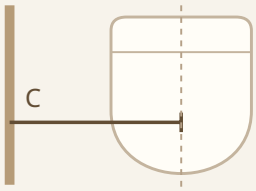
Fit. Water. Power.

See the connection points. Measure before confirming installation.

A 140–200 mm
Mounting-hole centre spacing

B ≥ 520 mm
Cistern front → bowl tip

C ≥ 305 mm
Side wall → toilet centreline



C uses different endpoints for each model.

Website installation illustration. A/B are marked on the photo; C uses the top-view diagram. Not to scale.

D / A covered wall outlet

Within 1.0 m of the seat

A grounded outlet with a water-resistant cover. Have an installer verify the supply and unit label.

E / Water valve & connection

Accessible • leak-free

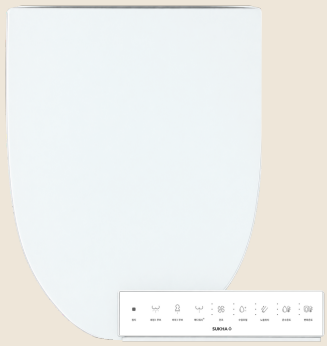
Check the clean-water valve and sprayer connection. Have the installer verify fittings and test for leaks before connecting power.

Send top/side photos, outlet and water locations, and A/B/C measurements. The team will review bowl shape, side clearance and any additional-outlet cost before confirming service.

06 / THE COMFORT EDIT

Two models. Your way.

Compare the differences that matter to you.



SUKHA SENSE

Pick up the remote

SUKHA UP

Controls by your side

Details	SENSE	UP
Controls	Wireless remote	Side touch panel
Preferences	Two saved user profiles	Adjust on the panel
Pressure levels	3 levels	5 levels
Width × depth × height	390 × 528 × 95 mm	453 × 528 × 95 mm
Approximate weight	3.2 kg	3.3 kg
IP rating: body / controls	IPX6 / IPX8	IPX6 / IPX8
A / mounting-hole spacing	140–200 mm	140–200 mm
B / cistern front to bowl tip	≥ 520 mm	≥ 520 mm
C / side clearance	≥ 305 mm to centreline	≥ 80 mm to ceramic edge

Comforts in both models

Instant warm water

Heated seat

Warm-air drying

Preliminary screening only. Diagram is not to scale. Confirm bowl shape, side clearance and the actual site before installation. The two models use different endpoints for C.

Intelligent bidet seat only; toilet bowl is not included. Bathroom scenes illustrate suggested settings.
