With warm-air drying

DESIGNED AROUND YOU

Everyday comfort. By your side.

Considered details for your most personal space.

01 / A LITTLE MORE COMFORT

A familiar space.
A new kind of comfort.

An intelligent bidet seat with a fixed side touch panel and five pressure levels. Familiar controls, every day.

MADE IN KOREA

DESIGNED FOR EVERY DAY

Touch
backlit side touch panel

9.5 cm
a slim, considered design

5
pressure and nozzle-position levels

IPX6 / IPX8
body / side touch panel

Intelligent bidet seat only; toilet bowl is not included. Bathroom scenes illustrate suggested settings.

IP ratings apply to individual components, not the plug or outlet. Keep electrical connections dry and unplug before external cleaning.

02 / THE COMFORT EDIT

The details make the difference.

Choose the comforts that suit your routine.

A familiar place for every control

The fixed backlit side touch panel stays beside the seat. There are no remote batteries to replace.

Adjust to your preference

Choose from five pressure levels and five nozzle positions. Begin gently and adjust to your comfort.

Care across three areas

Hygiene functions cover the water path, nozzle and bowl, with manual and automatic modes according to model settings.

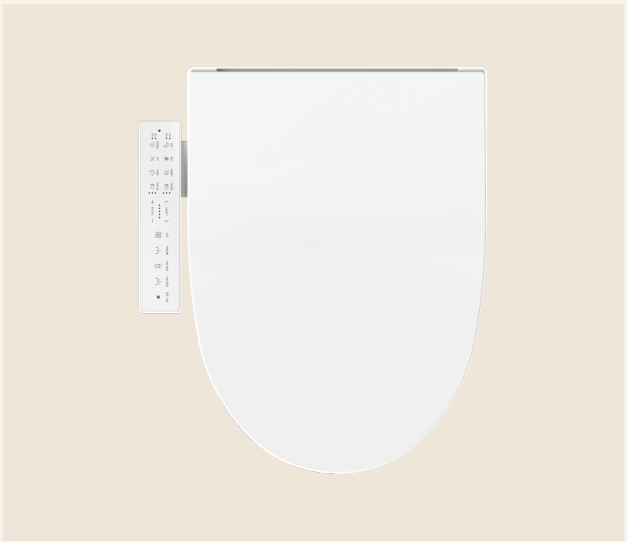
Replaceable stainless-steel nozzle

A three-way full stainless-steel nozzle assembly can be replaced. Follow the supplied model manual for care and replacement.

Warmth throughout your routine

Instant water heating, a heated seat and temperature-adjustable warm-air drying.

A fixed control panel, always within reach



A slim profile with a soft-closing lid

IP ratings apply to individual components, not the plug or outlet. Keep electrical connections dry and unplug before external cleaning.

03 / THE COMFORT EDIT

Make yourself comfortable.

Side touch panel · five pressure levels

01 – 03 **Start gently. Find your comfort.**

01

Select

Sit on the seat so the sensor detects you, then select rear or front wash.

02

Adjust

Adjust pressure, temperature and nozzle position, starting gently.

03

Finish

Press Stop when finished. Select warm-air drying if desired.

Your preferences

Select and adjust functions on the side touch panel. Begin with gentle pressure. Follow the supplied manual for button sequences and automatic-cycle settings.

Gentle care

Unplug before cleaning the exterior. Use a soft cloth and neutral detergent. Avoid abrasives, strong acids and solvents. Keep the plug and outlet dry.

04 / THE COMFORT EDIT

Every detail, at a glance.

SUKHA UP / Product reference specifications

Product type	Retrofit smart bidet seat for compatible toilets
Width × depth × height	453 × 528 × 95 mm
Approximate weight	3.3 kg

Included water-hose length	Approximately 60 cm
Protection devices	Built-in leakage protection · thermal fuse · seat sensor · overheating protection

Confirm the local electrical rating

Electrical rating: confirm voltage, frequency and rated power on the supplied local-unit label before installation.

Reference specifications come from manufacturer documents. Electrical values differ between editions; use the label and manual supplied with the delivered unit.

05 / THE COMFORT EDIT

Fit. Water. Power.

See the connection points. Measure before confirming installation.

A 140–200 mm

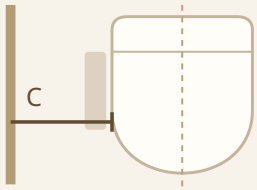
Mounting-hole centre spacing

B ≥ 520 mm

Cistern front → bowl tip

C ≥ 80 mm

Wall → ceramic edge on control side



C uses different endpoints for each model.

Website installation illustration. A/B are marked on the photo; C uses the top-view diagram. Not to scale.

D / A covered wall outlet

Within 1.0 m of the seat

A grounded outlet with a water-resistant cover. Have an installer verify the supply and unit label.

E / Water valve & connection

Accessible • leak-free

Check the clean-water valve and sprayer connection. Have the installer verify fittings and test for leaks before connecting power.

Send top/side photos, outlet and water locations, and A/B/C measurements. The team will review bowl shape, side clearance and any additional-outlet cost before confirming service.

06 / THE COMFORT EDIT

Two models. Your way.

Compare the differences that matter to you.
